Special Olympics
Virginia

Special Olympics is a year-round program of sports and training and athletic competition for children and adults with intellectual disabilities. The program, however, is about more than sports. At the heart of Special Olympics lies a prototype for transforming our communities.

The partnership between the Virginia Moose Association and Special Olympics began over fifteen years ago...the May, 2009, tournament will be the sixteenth year that softball players from all over Virginia, North Carolina, Maryland and Pennsylvania will converge on the little town of Bedford. The first games had five or six teams playing behind the Bedford Moose Lodge #1897. The event has grown to accommodate thirty plus teams on eight fields located throughout the city and county of Bedford. Not only do teams travel to compete, but ASA certified umpires travel from Ohio, New York, Pennsylvania and Virginia to be part of this special weekend. The Virginia Moose Association along with the Blue Ridge Moose Legion generously provide housing, meals and the complete weekend for all these outstanding young adults. We celebrate on Saturday night with Opening Ceremonies on the field culminating with a fabulous display of fireworks and dance.

The planning and hard work by local members of the Loyal Order of Moose and Moose Intl. along with Special Olympics of Virginia and the American Softball Association has made this small tournament, with the development of regional and area tournaments, into a national tournament. The culmination of which is to be held at Mooseheart, our Child City.
